Come join the **LO Growers Group** for the annual **Summer Grower Tour**. This year the group is going to look no further than... our own back yards! Ontario nurseries are innovative and leaders in container and field production. The 2006 tour will focus on **FIELD** production and **POT-IN-POT** production

DAY 1 The tour will begin at **BRAUN** Nursery where they specialize in growing specimen quality, large caliper field-grown trees. Our next stop will be **WINKELMOLEN** Nursery where Jan will take us through their quality shade & ornamental trees, including top grafted standards. Our 3rd stop is **SHERIDAN** Nurseries where we will see their Pot-in-Pot and large container systems, followed by a field tour with a look at their results using drip tape.

DAY 2 We will start out at **SOMERVILLE** Nurseries, where we will view some of their field grown evergreens and have a special look at their seedling operation. Our next stop is the **ONTARIO TREE SEED PLANT**, where Al will give us a behind-the-scenes tour of their high tech seed operation. We will finish up at **SOLTY & SONS** Ltd where we will see everything from their specialized hard wood cuttings to field grown specimen plants under drip irrigation.

NOTE: to keep transportation costs down, we've decided to **CARPOOL** in multi-passenger vehicles. Special discounts will be given to those participants that provide vehicles for carpooling. Let Kathleen know your transportation plans at the time of registration. Looking forward to seeing you there!
