LECTURE SERIES

Virginia, Vita and Sissinghurst
THURSDAY, NOVEMBER 22, 2007

Landscape Ontario members, don't miss this opportunity to thank clients, staff and colleagues with tickets to an extraordinary photo-documentary that elevates 'lecture' to 'experience.' Proceeds from this event will support the Toronto Botanical Garden.

Landscape Ontario's Toronto Chapter proudly presents Virginia, Vita and Sissinghurst. This live photo-documentary lecture is an exposé of the lives of the experimental writer Virginia Woolf, the poet and plantswoman Vita Sackville-West, and their Bloomsbury contemporaries – a story which comes together and culminates in an in-depth exploration of England's most visited garden, the Sissinghurst Castle estate in Kent.
