

*"From a personal perspective, our company culture has been to encourage training, education, and certification, at all levels. After participating in the Landscape Industry Certified journey since the very beginning I believe it is one of the fibres that hold our company together."*

— **Tim Kearney CLP**,  
Landscape Technician Algonquin College,  
President of Garden Creations of Ottawa

# Certification

Landscape Ontario is committed to recognizing standards of expertise in the landscape horticulture industry. Sector-specific certification programs help to promote competence and professional practices, resulting in industry-wide excellence.

## Landscape Industry Certified Manager (CLP)

This program is designed for owners and managers wishing to prove or improve their business skills. The Landscape Industry Certified Manager designation denotes competence in the challenging task of managing a successful business today.

## Landscape Industry Certified Technician (CLT)

This program allows individuals to demonstrate their competence in a variety of industry tasks. The Landscape Industry Certified Technician program is available for Softscape Installation, Hardscape Installation, Turf Maintenance, Ornamental Maintenance and Interior Landscape professionals with a minimum of 2 years experience (highly suggested). This program is an internationally recognized, industry-developed program that sets and maintains standards for knowledge, skills and safety through written and practical's test along with continued education components.

## Landscape Industry Certified Retail Horticulturist (CHT)

This recently updated, nationally recognized, industry-developed program was created for Retail Garden Center professionals to prove their competency in a variety of tasks and industry practices.

## Landscape Industry Certified Designer (CLD)

A Landscape Industry Certified Designer designation will provide a designer with a means of proving to your clients that you not only have the necessary education and industry experience, but that you have written and passed an industry test proving a high degree of proficiency as a landscape designer, along with submitting and passing a portfolio evaluation.

**Further information**  
on Certification can be found at

# Thank you

In 2011, over 60 Industry Professionals devoted over 600 hours of their time to judging and volunteering at the practical test days. These efforts represent over 300 earned Continued Education Units (CEUs).

Thank you, Judges and Volunteers! We could not have done it without your hard work and dedication.

CEU approved seminars and preparation seminars for the Landscape Industry Certified Tests are available through various Landscape Ontario events. Go to [horttrades.com/seminars](http://horttrades.com/seminars), or see your *Professional Development Guide* for more information, and look for the **CLT**, **CHT**, **CLP**, **CLD** symbols.

# 2011 landscape industry certified recognition

*"I initially became certified as a way to formally define my experience and qualifications. It is a way to identify myself immediately as a professional in an industry where it is often very difficult to do so. Certification is just one of the many tools our company uses to convey to prospective clients that we are educated, experienced and dedicated to our work."*

**Mike Lunau CLP, CLT**  
Landscape Technician Niagara College,  
Landscape Architect Student at Guelph University
